WORK EXPERIENCE

Engineer

Freelance | 2018 - Present

- Freelance engineering for multi-family construction projects including but not limited to:
 - Structural blueprint creation with follow-up site visits to ensure quality execution
 - Project Estimations, budgeting, and guidance regarding government/city codes and practices

Civil Engineering Intern

Engemil Engenharia | 2018 - 2019

- Ensured smooth execution of site plan for a seven-floor, 50-unit residential building for Brazilian government military families
- Coordination and quality control of on-site teams (electrical, plumbing, structural, grounding & lightning)
- Identified errors, proposed and executed new systems for continual improvements during build-out
- Ran monthly tracking system to report to government officials allowing the continual and appropriate funding of the project

Teaching Assistant

Universidade Paulista | 2017 - 2018

- Supported professor in the classroom by teaching materials required while maintaining a spirit of camaraderie amongst the students within the department
- Helped students prepare for examinations and projects while acting as a liaison for communication efforts directly with professors

EDUCATION HIGHLIGHTS

Paulista University (Universidade Paulista)

Bachelor of Science in Civil Engineering | 2014 - 2019
